www.NanaCea.com

Dear friends,

Many of you know me as RicePatty and have seen my infomercials on television for Rice 'n Shine and FlexProtex. I am no longer associated with ITV or ITV Ventures and have created a new line of products which I consider to be superior to any other formulations I have done in the past.

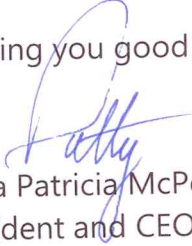

NanaCea 24/7 Meal Replacement and NanaFlex products are similar to my original Rice 'N Shine and FlexProtex formulations, but with some significant improvements. These new products are the next generation of power packed nutritional products and the very best I have ever produced.

1. NanaCea 24/7 is essentially a very similar formulation to Rice 'n Shine with the following differences:
 - 24/7 is made from the freshest NanaCea Manna® (RiSolubles processed exclusively for NanaCea using NanaCea's proprietary technology) and specially processed MannaComplete™ (Cea100 processed exclusively for NanaCea using NanaCea's proprietary technology).
 - All soy isolates and derivatives have been eliminated.
 - The only phytosterols in this product are from rice bran.
 - New ingredients such as Co-enzyme Q10, Folic Acid, and Beta-carotene have been added.
2. NanaFlex™ is a similar formulation to FlexProtex, however, the following four ingredients have been added to improve the efficacy of this product:
 - MSM (methylsulphonylmethane). Supplies the building block for cartilage and reduces inflammation.
 - Annatto bean powder. Contains some powerful isomers of Vitamin E and addresses inflammation as well.

- Ginger powder. Helps relieve inflammation and pain, and is a good antioxidant.
- Eucomiae Ulmoides. Reduces the sensation of muscle and joint pain.

I stand behind my products 100% and offer a 90 day money back guarantee.

Wishing you good health and happiness,

Nana Patricia McPeak
President and CEO
NanaCea, a Corporation
